Sample Multiple Choice Questions and Answers on Final Accounts

Below are some carefully curated MCQs with detailed explanations to deepen your understanding of final accounts.

Question 1: Which of the following is NOT included in the preparation of a Profit and Loss Account?

- A) Gross Profit
- B) Operating Expenses
- C) Capital Introduced

- D) Interest on Loan

Answer: C) Capital Introduced

Explanation:

The profit and loss account reflects the company's revenue, expenses, and net profit or loss for the period. It includes gross profit, operating expenses, interest, and taxes. Capital introduced is a financing activity and appears on the balance sheet, not in the profit and loss account.

Question 2: Which of the following is a current asset?

- A) Machinery
- B) Goodwill
- C) Inventory
- D) Land

Answer: C) Inventory

Explanation:

Current assets are assets that are expected to be converted into cash or used within one year. Inventory, being stock of goods held for sale, qualifies as a current asset. Machinery and land are fixed assets, while goodwill is an intangible asset.

Question 3: Which item is deducted from gross profit to arrive at net profit?

- A) Rent received
- B) Office salaries
- C) Capital expenditure
- D) Purchase of fixed assets

Answer: B) Office salaries

Gross profit is calculated by deducting the cost of goods sold from sales. To arrive at net profit, operating expenses such as salaries, rent, and utilities are deducted from gross profit. Rent received is income, and capital expenditure relates to fixed assets, not operating expenses.

Question 4: What does the balance sheet show?

- A) Profit or loss for the period
- B) Financial position of the business at a specific date
- C) Cash inflows and outflows
- D) Details of sales and purchases

Answer: B) Financial position of the business at a specific date

Question 5: Which of the following is classified as a non-current liability?

- A) Accounts payable
- B) Bank overdraft
- C) Long-term loan
- D) Outstanding wages

Answer: C) Long-term loan

- A) Deducted from assets in the balance sheet
- B) Added to expenses in the profit and loss account
- C) Both A and B

Explanation:

Depreciation reduces the book value of fixed assets on the balance sheet and is recorded as an expense in the profit and loss account to reflect the cost of using assets.

Question 7: Which of the following is NOT a capital expenditure?

- A) Purchase of machinery
- B) Purchase of land
- C) Maintenance of building
- D) Construction of new office

Answer: C) Maintenance of building

- B) Sale of goods
- C) Issue of share capital
